

FUJITSU

RESIDENTIAL PACKAGED EQUIPMENT

PEACE OF MIND

Experience Infinite Comfort from Fujitsu. Our packaged heating and cooling equipment includes features that ensure your home and your family will be comfortable for years to come. You can also be comfortable knowing that we also offer some of the best warranties in the industry.

RELIABILITY

Fujitsu is serious about the quality of all of our products. Our packaged heating and cooling units are developed with technology that provides unmatched reliability and durability for years of worry-free operation – all backed by the peace of mind of our impressive warranties. You can be confident that our compressors, heat exchangers, controls, and other primary components are built to last.

PERFORMANCE

Our packaged heating and cooling products are available in a variety of efficiencies to ensure you save energy while meeting your budget needs. Performance is ensured by reliable and quiet scroll compressors which feature less moving parts, microchannel aluminum coil technology which allows for better heat transfer with less refrigerant charge, and robust fan motors that discharge air up and away from your home.

PACKAGED AIR CONDITIONERS

RSPM 14 SEER

RACA 14 & 15 SEER

PACKAGED HEAT PUMPS

RQPM 14 SEER and
RQRM 16 SEER

RQPL 14 SEER

PACKAGED GAS / ELECTRIC

RGEA 14, 15, & 16 SEER

QUIET OPERATION

Our packaged heating and cooling units blend into most home designs and are so quiet you will hardly know they are there. Quiet operation is accomplished by several design features, including a durable cabinet design with less opportunity for sheet metal noise combined with a scroll compressor and an elevated base pan that helps reduce noise for comfort that's as quiet as it is reliable.

EASY INSTALLATION

Making our units easier for contractors to install helps homeowners too. Features such as an easily accessible control box, single-point wiring, factory-installed filter driers, and a completely factory charged, wired, and run-tested unit simplifies installation, lowers cost and saves time.

Limited Warranty*
Compressors – 10 years
Conditional Parts – 10 years
Heat Exchangers – 10 years

PACKAGED DUAL FUEL

RQPW 14 SEER

DUAL FUEL SYSTEM: Combines the advantages of the electric heat pump and gas furnace to deliver the highest level of comfort at the lowest economical price.

Key Features & Benefits:

- Flexible energy consumption choices

- Easy replacement system
- Optimized heating potential

*For complete details of the limited and conditional warranties, including applicable terms and conditions, contact your local dealer or go to Fujitsu.com for a copy of the product warranty certificate. Conditional warranties must be registered through registermyunit.com.

A man and a woman are seen from behind, embracing each other. They are standing in front of a two-story house with a brown roof and light-colored siding. The house has a dormer with three windows and a front porch with white columns. The scene is set in a lush, green environment with trees and bushes.

FOR MORE THAN
40 YEARS, MAKING
THE HOTTEST
PLACES COOL AND
THE COOLEST
PLACES MORE
COMFORTABLE.
